505 TO VACAVILLE

80 TO DIXON

TWO SIZES, *One* CHOICE.

Producing finished shells almost faster than you can shoot them, **THE GRAND** progressive press is the ideal choice for high-volume shooters. It's easy to see why. One pull of the handle moves the hull through all eight stations, producing 500 precision-loaded shells an hour. And thanks to our innovative powder and shot design, there's no worry of spillage.

THE MINI GRAND affordable, single-stage press now offers Grand performance in a compact size that loads about 200 rounds an hour. Now every shooter can have the satisfaction of loading his own.

Visit www.rcbs.com to learn more about the right press for you.

A GREAT LOADER DESERVES GREAT POWDER.

Alliant **e³** powder delivers maximum velocities, greater consistency and the highest performance possible. With **e³** loaded in, you'll get optimum results every time out. www.alliantpowder.com.
